

Introduction

Riverside County California

Riverside County Highlights

The Heart of Inland Southern California

Regional Advantages

Riverside County is the fourth largest county in California. It measures 200 miles across from its western border with Orange County to the Colorado River at the Arizona border. At 7,300 square miles, it is about the same size as the state of New Jersey. Riverside is among the fastest growing counties in the nation. Its population exceeds 2 million and is expected to reach nearly **3 million by 2020**.

- Interstate 10 traverses the entire county from east to west, connecting businesses to Los Angeles and Phoenix. Interstates 15 and 215 connect Riverside County with San Diego and San Bernardino County. Highway 60 and 91 link Riverside County to Los Angeles and Orange Counties. Highway 86 is part of the North American Free Trade Agreement/NAFTA corridor providing easy access to Imperial County and Mexico.

- Santa Fe's huge new intermodal **railway** terminal is an important transportation link for Riverside County businesses and important ports of entry. Shipping into and out of ports in Los Angeles, Long Beach and San Diego is easy from Riverside County.
- Construction has begun on the **Alameda Corridor**, which will consolidate port truck and rail traffic onto a fast-moving corridor, providing more reliable, higher capacity shipping into and out of the ports of Los Angeles and Long Beach.
- Metrolink provides commuter rail service from Riverside to Los Angeles, Orange and San Bernardino Counties.
- Riverside County is served by 17 airports. Major air hubs include Ontario International Airport, serving western Riverside County with quick and easy access, and the Palm Springs International Airport serving the eastern part of the county. The Jacqueline Cochran regional Airport also serves the Coachella Valley with easy access and the capabilities of bringing in Boeing Business Jet 737. The March Inland Port addresses the growing need for economical air cargo services.
- Riverside County offers a customs port of entry in Palm Springs as well as convenient access to customs facilities in the greater Los Angeles area. In addition, designated Foreign Trade Zones are located at Palm Springs International Airport and the March Inland Port. Additionally the successful expansion, this year, of the FTZ #244, to include the cities of Corona, Eastvale, Jurupa, Moreno Valley, Norco, Perris, Riverside, the expansion of FTZ #153 to include the cities of Murrieta and Temecula provides ample opportunity and benefit for manufacturers to expand their efforts in exporting and reduce costs to import materials for final assembly.
- Thousands of acres of land for industrial development coupled with an expanding workforce make Riverside County an advantageous location for business relocation or expansion.

Business Services

Record-breaking real estate activity is driving the region's economy. As the Wall Street Journal said of the region... "With easy money and no shortage of sites, developers are scrambling to build offices, warehouses, apartments and shopping centers." The Riverside County Economic Development Agency (EDA) is ready to help companies participate in this remarkable growth through a variety of different programs.

- **Site Selection Assistance** – EDA representatives will work with a business to find a building or site that meets the company's needs. Find your new location using Riverside County's new and advanced site selection tool www.rivcoprospector.com
